EU4Health Programme 2021-2027

a vision for a healthier European Union
22 January 2021, 10:00 – 12:00 CET

The EU4Health Programme (https://ec.europa.eu/health/funding/eu4health_en) is the EU's response to COVID-19. The pandemic has a major impact on patients, medical and healthcare staff, and health systems in Europe. The new EU4Health Programme will go beyond crisis response and readiness to address healthcare systems' resilience.

EU4Health will provide funding to eligible health organisations and NGOs from EU Member States or third countries associated to the Programme.

The webinar will explain the programme's objectives, highlight possible actions and funding opportunities. Participants will be able to provide input on the most burning health issues in the EU and how to address them.

The webinar is open to all relevant stakeholders: NGOs, associations, businesses, Member States' policy makers, patients' organisations, etc.

The plenary sessions will be **live-streamed**:
