

**OPEN
POSITION**

Postdoctoral Researcher

The position

WE ARE SEARCHING FOR

An experienced postdoctoral researcher with a strong interest in translational cancer research.

WHAT WILL YOU DO

You will develop high translational cancer research projects based on patient-derived models. Also, you will help the PI with the coordination of PhD students, oversee their labors and propose experimental approaches.

REQUIREMENTS

Proven achievements in at least two previous research groups.

WHERE

IMIM is the research institute of Hospital del Mar (BARCELONA)

IMIM is part of the Barcelona Biomedical Research Park (PRBB). This is an exceptional environment to do translational research, having the best technological platforms (cytometry, animal facility, microscopy, etc.) and a close relation with Hospital del Mar. The access to patients and samples makes possible a direct application of the best scientific advances.

The team

We are a dynamic research group, with solid experience on translational biomedicine. Our research focuses in the identification of cancer weaknesses in order to generate new and more effective therapies.

HIGHLIGHTED WORK

[p95HER2-T cell bispecific antibody for breast cancer treatment](#)

THE PI: Dr. **Joaquín Arribas**, ICREA Professor, is the current Director of IMIM and Research Director of PSMAR. He is also Coordinator of the Breast Cancer Program in CIBERONC and Leader of the Growth Factors Group at VHIO. Dr. Arribas is author of high IF publications and Principal Investigator of several well-funded projects. His research is highly collaborative and fully oriented to translation, resulting in patents and licensing.

HOW TO APPLY

Send an email to vnogales@imim.es with your CV, an introduction letter indicating why you are interested in this position and the contact information of two references.
