

## Postdoctoral Position at IMIM Tumor Vulnerabilities (Ref. 2030 - ARRIBAS)

---

The group of Dr. Joaquín Arribas is seeking for a Postdoctoral candidate with strong interest in Cancer Immunotherapy. The researcher will join an exciting project to develop CART cells against a novel tumor-specific antigen.

### Team

Dr. Arribas has an outstanding record in leadership, being current Director of IMIM and Research Director of PSMAR, Breast Cancer Program Director at CIBERONC and Director of Preclinical Research Program at VHIO. He is also professor ICREA, author of multiple articles of high IF (Science Translational Medicine, Cancer Cell, CA Cancer J Clin, Nature Communications) and Principal Investigator in several well-funded projects. Dr. Arribas's lab has a wide experience in the study and generation of new cancer immunotherapies, including CART cells, bispecific antibodies, humanized mice models, etc. His research is highly collaborative and fully oriented to translational actions resulting in patents and licensing.

### Place

The project will be developed at the [IMIM](#), a multidisciplinary research center which is located in the [Barcelona Biomedical Research Park](#). This is an exceptional environment to perform biomedical translational research, counting with the proximity of the best facilities of PRBB (animal facility, sequencing, microscopy, etc.) and a close relationship with [Hospital del Mar](#). The access to patients and samples makes possible to give a direct application to the best scientific advances.

### Requirements

We seek outstanding individuals awarded with a PhD in disciplines such as Biology, Medicine, Pharmacy or similar. We are looking for highly motivated and organized candidates with good communication skills, initiative, creativity, capable of working in a group but also with a high degree of work autonomy and interest to form students. Experience in animal models and cell biology, as well as high level of English spoken and written, are essential. High quality publications will be highly considered.

### Starting Date and Terms

The position is available starting from November 2020 and represents a contract for 2 years, with the possibility of extension. Salary will be negotiable according to the candidate capabilities.

## **Applications**

Applications should be sent to Dr. Vanesa Nogales, (vnogales@imim.es) adding a CV and a motivation letter indicating in the subject, "POSTDOCTORAL POSITION". In addition, the name and email of a contacting professor/s or researcher/s that know the candidate should be provided. Pre-selected candidates will be invited for an interview and will have to prepare a presentation summarizing their previous research.

**Deadline: Oct 30th**
