

Laboratory Technician

WHAT

WE ARE SEARCHING

A methodic and organized person with experience as lab technician in translational biomedical cancer research.

WHAT WILL YOU DO

You will support our researchers with technics in animal research, cell culture, gene expression analysis, cytotoxicity analysis, etc.

REQUEREMENTS

**At least two years in a similar position.
Well knowledge of English written and spoken.**

WHERE

IMIM is the research institute of Hospital del Mar (BARCELONA)

IMIM is part of the Barcelona Biomedical Research Park (PRBB). This is an exceptional environment to do translational research, having the best technological platforms (cytometry, animal facility, microscopy, etc.) and a close relation with Hospital del Mar. The access to patients and samples makes possible a direct application of the best scientific advances.

WHO

THE TEAM: A research group on translational biomedicine dedicated to the identification of cancer weaknesses in order to generate new and more effective therapies.

HIGHLIGHTED WORK

[p95HER2-T cell bispecific antibody for breast cancer treatment](#)

OUR VALUES

#Team
#Trusth
#Loyalty
#Responsibility
#Dedication

THE PI: Dr. **Joaquín Arribas** is the current Director of IMIM and Research Director of PSMAR. He is also Director of the Breast Cancer Program in CIBERONC and Leader of Growth Factor Group at VHIO. He is a ICREA Professor, author of high IF publications and Principal Investigator of several well-funded projects. His research is highly collaborative and fully oriented to translation, resulting in patents and licensing.

HOW TO APPLY

Send an email to jarribas@imim.es with you CV, an introductory letter indicating why are you interested in this position and the contact information of two references.
