

# Postdoctoral Researcher

## WHAT

WE ARE SEARCHING FOR

**An autonomous and well-organized postdoctoral researcher with a strong interest in Cancer Biology.**

WHAT WILL YOU DO

**You will develop high translational cancer research projects through experiment based on patient-derived models.**

REQUEREMENTS

**At least two years in a similar position.  
Well knowledge of English written and spoken.**

## WHO

**THE TEAM:** A research group on translational biomedicine dedicated to the identification of cancer weaknesses in order to generate new and more effective therapies.

### HIGHLIGHTED WORK

[p95HER2-T cell bispecific antibody for breast cancer treatment](#)

### OUR VALUES

#Team  
#Trusth  
#Loyalty  
#Responsibility  
#Dedication

**THE PI:** Dr. **Joaquín Arribas** is the current Director of IMIM and Research Director of PSMAR. He is also Director of the Breast Cancer Program in CIBERONC and Leader of Growth Factor Group at VHIO. He is a ICREA Professor, author of high IF publications and Principal Investigator of several well-funded projects. His research is highly collaborative and fully oriented to translation, resulting in patents and licensing.

## WHERE

**IMIM** is the research institute of Hospital del Mar (BARCELONA)

IMIM is part of the Barcelona Biomedical Research Park (PRBB). This is an exceptional environment to do translational research, having the best technological platforms (cytometry, animal facility, microscopy, etc.) and a close relation with Hospital del Mar. The access to patients and samples makes possible a direct application of the best scientific advances.

## HOW TO APPLY

Send an email to [jarribas@imim.es](mailto:jarribas@imim.es) with you CV, an introductory letter indicating why are you interested in this position and the contact information of two references.
