

Postdoctoral Researcher

GReNeC, Neurobiology of Behaviour Research Group

IMIM. Institut Hospital del Mar d'Investigacions Mèdiques

The GReNeC (Neurobiology of Behaviour Research Group) at the IMIM (Barcelona) is looking for a postdoctoral fellow to be integrated in a multidisciplinary research team to contribute the execution of the RIAPAd project (ISCIII).

The GReNeC's main fields of research are:

- **Behavioural neuroscience**
- **Immunohistochemistry**
- **Neurochemistry**
- **Neuropharmacology**

The group's research projects, and publication list can be found at <http://www.upf.edu/gredec/>

The ideal candidate should have a PhD in the fields of Biology, Biochemistry, Neuroscience, Pharmacy, Psychology, but other backgrounds could also be considered. Experience in behavior and molecular neuroscience research projects will be highly valued.

Accreditation for experimentation in rodents is needed.

He/she should be an autonomous researcher, a good team player and able to supervise graduate students.

The main tasks of the successful candidate will be:

- Design, plan and carry out experiments related to drug addiction, mood disorders and co-morbidity using experimental approaches.
- Collaborate in the training and supervision of predoctoral students
- Actively participate in the research and teaching duties of the team.

Application and enquiries:

Applicants should submit their CV, a presentation letter and contact details of two referees to seleccion.gredec@upf.edu before **June 15th 2022**.
