Inactivation of the Hippo tumor suppressor pathway by Integrin-Linked Kinase (ILK)

Dr. Shoukat Dedhar

Department of Integrative Oncology
British Columbia Cancer Research Centre
Vancouver, Canada

Dr. Dedhar's laboratory is investigating the interaction of the integrin subunits with intracellular proteins and the mechanism of signal transduction mediated by these receptors.

dimarts

12

de novembre
de 2013

13.00h

Sala
Charles Darwin

Organitza:

Grup de recerca en transició epiteli-mesènquima i progressió tumoral
